

# Girls in Control

## II

Advanced  
workshop

For Girls  
aged 10-15.  
*In English*

*Saturday  
5th June at  
6:00 (UTC)*

*Now for  
FREE  
online!*

Control Engineering is an engineering discipline that moves technical, economic and biological systems.

In this more advanced workshop, we go deeper into control and implement more complex control solutions for a fun and challenging problem that includes nothing else but saving the world from intergalactic war!
